## **A Report on “International Alumni Meet” on 30/08/2025**

### **Brief Description of the Event:**

Alumni can play an active role in voluntary programs like mentoring students in their areas of expertise. They also play a significant role in contributing scholarships to deserving students. Alumni get in touch with students and share their expertise and best practices in a given field.

Educational institutions are changing the way they see and interact with their alumni community. Earlier, alumni and their alma-mater were treated as separate entities wherein one's existence was independent of the other. Local alumni chapters were formed as a means to interact with other fellow alumni. However, these associations seldom had any interaction with the institution they graduated from. There are 4 ways in which alumni association are creating a powerful positive impact: Support system, offering expertise, Assistance in Employability and Mentorship and Scholarships
